

# PROTECT YOURSELF & YOUR MOBILE ELECTRONICS

with **CLEEN CELL**

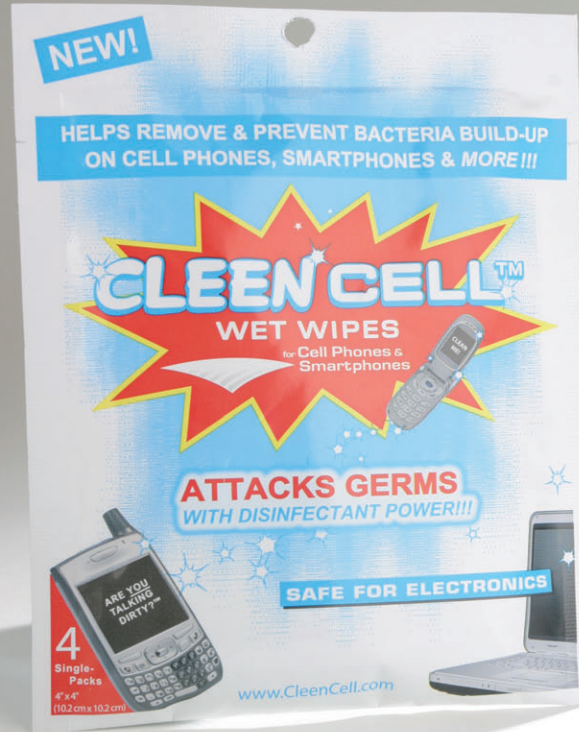

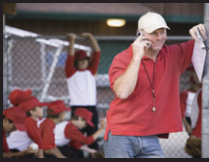

"Your cell phone is a breeding ground for harmful bacteria."

- ABC News

"It shouldn't be any surprise that our cell phones would be great conduits for germs."

- Dr. Emily Senay on The Early Show, CBS News

**JUST IN TIME FOR SUMMER!**

**WET WIPES DESIGNED FROM THE GROUND UP FOR CELL PHONES, SMARTPHONES & OTHER MOBILE DEVICES!**

**ARE YOU TALKING DIRTY?**

- Scratch, streak and lint-free textured cloth deep cleans hard to reach areas on compact devices, such as keypads, hinges and mouthpieces.

- Impregnated with a unique cleansing solution with active disinfectant and bactericidal ingredients specifically designed to kill germs and prevent build-up yet be safe for the inside AND outside of mobile electronics!

- "Other wipes" intended to clean countertops, babies or hands can damage the electronics or shell of small devices; they often soak a small cell phone, may contain a soapy liquid solution harmful for electronics, or a cloth that that may scratch the device.
